- > Supplied with configurable legends as standard
- > 20M viewing distance and over 8M spacing between fittings
- > Universal for Maintained or Non-maintained - simply cut the connecting wire within the fitting to enable as maintained.
- > Complies to BS EN 60598.2.22 and provides a minimum 3 hour duration when in battery back-up mode.
- > Photocell option available

DESCRIPTION

The Viscount LedLite Duo is a high performance emergency bulkhead constructed with a white polycarbonate back body and semi transparent diffuser. It is designed for either surface or semi-recessed mounting and the unique twin lamp LED system provides high efficiency light output with low energy consumption of just 1 Watt but delivering 110 lumens.

The versatility of design offers a fitting that is universal for maintained and non-maintained, suitable for escape route lighting and escape route signage with configurable legends included as standard and is rated to IP65 for both internal and external applications.
